Sin El Fil,

Attention: Henri Korbani, Senior Project Manager  
Subject: Onshore Gas Development Phase III Project  
Subcontract No. 25113-000-HC3-P00Z-00003  
Piping and Mechanical Erection  
Proposed Painting Subcontractor (Akkila Co. Ltd.)

Reference: Lahoud letter LEC/EBCL-25113-P00Z-L-00060, dated 19 April 2006

Dear Mr. Korbani,

Bechtel has reviewed the pre-qualification documentation for Akkila co. Ltd. and has no objection to Lahoud deploying them as its lower tier painting subcontractor for the works.

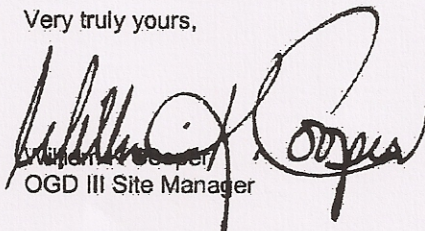

Lahoud must ensure the following:

- The applicable relevant clauses and sections of the subcontract with CONTRACTOR are passed to its lower tier subcontractor, including Lahoud's approved Project HSE and Quality manuals, for full compliance by the subcontractor.
- Full compliance with painting specifications.
- Utilisation of paint that is compatible with other associated coatings being used on the Project. Lahoud is hereby advised that Jotun Paints is the Project preferred paint supply.

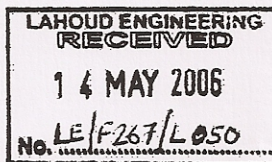

Please provide an unpriced copy of the subcontract/agreement for Bechtel information and record.

Should you have any questions please do not hesitate to contact your subcontract administrator or myself.

Very truly yours,

  
William Cooper

# MEMAC

Mechanical Engineering & Maintenance Associated Company.

Date : Jul.05,1999

Ref : MM.Dam30

## To Whom It May Concern

Akkila Testing Services is a subcontractor to MEMAC providing NDT services for MEMAC's contract ( 56/98/S ) with Al-Furat Petroleum Company ( AFPC ) to perform mechanical maintenance works and tanks cleaning services. This 3-year, 20 Million USD contract commenced on November 16, 1998 and encompasses a wide range of maintenance of OIL & GAS static facilities including welding, fabrication, flowline repair and construction, coating, cleaning, and relevant civil engineering works. This range of tests including RT, UT, DPI, and MPI.

Akkila Testing Services has been carrying out this work for MEMAC reliably since the beginning of the contract and has demonstrated professional ability to conduct, analyze and report to MEMAC the findings of these services. Akkila's site, inside MEMAC's yard, has been inspected by AFPC and the Syrian Atomic Energy Authority and has been approved for this kind of work. Akkila's employees have proved to be hard workers, knowledgeable, reliable, and perform an excellent job within time and budget.

Akkila Testing Service & Protective Coatings  
P.O.Box 915  
Homs  
Syria

04-05-1998

Dear Sir,

Herewith we would like to inform you that Akkila Testing Service & Protective Coatings worked on the Tankcleaning Project at pumpstation T4, located between Homs en Palmyra.

Akkila Testing Service & Protective Coatings installed and completed the whole system, needed to clean the 8000 ton sludge in Tank 206 .

Akkila Testing Service & Protective Coatings constructed and supplied all pipe work and process related items.

Akkila Testing Service & Protective Coatings fitted, welded and X-rayed all system related weldings.

The whole system was painted and insulated after the necessary pressure tests on the process were done.

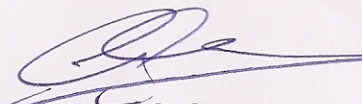

All work was executed in a short and very professional way.

It was a real pleasure to work with Mr. Akkila and his crew.

If you have any questions or require some more information about Akkila Testing Service & Protective Coatings, do not hesitate to contact us at the above mentioned address.

Best regards,

DATE : 27.12.95

To Whom It May Concern;

Titan Projects would like to acknowledge the very organized and professional services that were supplied by the Akkila Testing Services for the Palmyra Gas Project. Mr. Haytham Akkila's company worked very Safely and Efficiently during the NDT testing for the 24" Pipeline and the 3 GGS Station. I am sure that without his organizing and aggressive nature to complete the work , we would not have been able to complete Phase 1 in the specified time. ATS were responsible for the internal coating of 15 Tanks on the project which were completed withth no problems or incidents.

Mr. Akkila ensures his people are aware of the work to be done and the most proficient method of performing the tasks safely. Mr Akkila has a vast spectrum of experience and is very willing to share his knowledge to help the project progress.

I highly recommend the **AKKILA TESTING SERVICES & PROTECTIVE COATINGS** Company for any projects that require his vast array of services.

MR. WAYNE SCHILLING
